LETTER OF AGREEMENT

Pursuant to Article 10.4 of the Agreement of August 26, 2016, between the Connecticut State University American Association of University Professors and the Board of Regents for the Connecticut State University, the parties agree that faculty load credit will consist of 0.5 credits per semester for the maintenance of each of the following instruments; gas chromatograph with mass spectral detector (GCMS), liquid chromatograph with mass spectral detector (LCMS) and nuclear magnetic resonance spectrometer (NMR). The faculty members assigned to the specific instruments will be required to provide weekly routine maintenance including calibration of the instruments and running sample spectra that will be posted in a visible place nearby the instrument, and the ordering of supplies related to the instrument. Faculty members are also responsible for notifying appropriate staff to arrange requisitions for external instrument maintenance by qualified personnel when necessary.
